ABOUT US

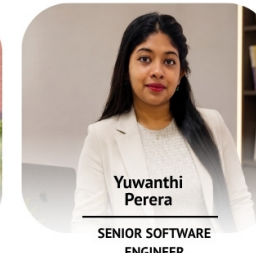

15 Years of Innovation, One Global Mission.

Sri Lankan roots, Global delivery.

For over decade and half, FIDA Global has been the driving force behind smarter business - delivering Business Human Capital Management, ERP System Integration, IT Infrastructure, IoT Research & Development, and IT Distribution & Consultancy solutions that move organizations forward. From our roots in Sri Lanka to clients across the globe, from agile SMEs to multinational corporations, we've built our reputation on one thing: results our clients can trust.

We don't just deliver innovation and service - we deliver them with purpose, holding ourselves accountable to society every step of the way. Because for us, leadership isn't just about being the best in the industry. It's about building a better quality of life, for everyone, everywhere.

VISION

Be a global player of
providing quality life,
with a better future for
everybody.

MISSION

Satisfy our customers
by providing world-class
innovations, products
and, services with
Social Responsibility.

FOCUS

Founded in 2011 by industry experts, FIDA Global (Private) Limited was built with one goal: deliver the best products and services to our customers and business partners.

Over the years, we've gone beyond delivery - investing our time and expertise to solve real business challenges for the people we serve. That commitment has transformed us into a leading Human Resource cloud business solutions company, trusted by local and international customers alike.

**Our success
isn't accidental.
It's built on these
FACTORS:**

CUSTOMER FOCUS

Every solution we build starts with a real problem a real customer brought to us. We listen first, build second - because success isn't measured by what we ship, it's measured by the problems we solve.

COLLABORATION

Great outcomes are never built alone. We work hand-in-hand with our clients, partners, and teams - combining expertise and perspective to deliver more than any one of us could alone.

INNOVATION & KNOWLEDGE

We don't wait for change, we drive it. 15 years of expertise, constantly evolving through research, R&D, and hands-on knowledge-sharing, so our customers always stay ahead.

PLANET

Progress means nothing if it costs us our future. We build responsibly - mindful of our environmental footprint, and committed to sustainable practices in everything we do.

OUR SUCCESS JOURNEY

Our team of engineers, working hand-in-hand with a dedicated customer, set out to solve the unmanaged challenges facing the construction industry - right at the construction site itself.

The result: "Smart HRIS for Construction" - a solution recognized for its world-class innovation, uniqueness, and digital transformation expertise. It was honoured at the National ICT Awards – NBQSA 2021, and named a finalist at the APICTA Awards 2020–2021.

This is the foundation everything else is built on - every product, every partnership, every promise we keep.

“Built to be rooted.”

OUR CORE VALUES

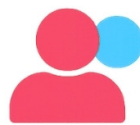

Our transparent strategy is what keeps our relationships with systems integrators, end-users, and stakeholders strong.

We partner only with industry-leading, reliable products and services - carefully selected suppliers, chosen through years of experience, deep industry knowledge, and proven global standing.

We invest in our people - building an innovation-first mindset that empowers our partners and customers to achieve real success, backed by our expertise and best practices.

We hold every solution to the highest ethical standard - committed to protecting the environment and never compromising on responsible business practice.

We invest in our people's growth and wellbeing, hold every solution to ethical, environment-first standards, and let profit follow naturally - sustainable, responsible, and built to last.

PEOPLE · PLANET · PROFIT

Our PRODUCTS
